

Sutherland House School

Sutherland House School

Coronavirus (COVID-19): Contingency Plan

Please note: this plan has been created in line with the advice regarding contingency planning in the DfE's 'Full opening guidance: schools'. There is currently no national guidance on how schools should operate during a local lockdown. Some of the content of this plan has been guided by the school-specific measures that were implemented during the Leicester local lockdown and the measures that were in place during the national lockdown; however, every local lockdown will be different depending on the circumstances of the area. If a local lockdown is implemented in your area, you must follow the specific guidance for your area. We will ensure this plan is updated in line with national government guidelines regarding the operation of schools during local lockdowns.

Title: Thermal Imaging Cameras Protocol

Applicable to: Staff, Pupils, Visitors

Ratified by: Ann Stewart

1. The aim of this plan

If a local area sees a spike in coronavirus (COVID-19) infection rates that is resulting in localised community spread, appropriate authorities will decide which measures to implement to help contain the spread – these measures could include the partial closure of schools in the area.

This document outlines how the school will operate if a local lockdown is implemented. If a local lockdown is implemented in our area, the school will work closely with the local health protection team (HPT) and implement provisions as advised by the team.

This is a live document that will be reviewed by the Deputy Headteacher in conjunction with the Headteacher and the Governing Body. as and when the situation develops.

2. On-site provision

Pupils

The school will continue to offer on-site provisions for eligible pupils – eligible pupils are likely to be vulnerable pupils and children of critical workers.

The number of pupils who will be attending school from these groups will be identified **by contacting parents via email and text** – this number will be used to agree what staffing resource is required.

Vulnerable pupils and children of critical workers are permitted to travel into and out of the area for education – this includes parents taking their children to school.

In circumstances where a parent or carer of a child with a social worker does not want their child to attend the school, the school and the child's social worker will explore the reasons for this directly with the parent or carer and work together with them to support the child to attend.

The headteacher will work with the relevant staff to decide appropriate pupil bubbles.

Pupils will be always kept in the same bubbles each day, and different groups will not mix during the day, or on subsequent days. The same staff will be assigned to each bubble and, as far as possible, staff will stay assigned to the same bubble during the day and on subsequent days.

Staff

Critical workers, which includes school staff, are permitted to travel into and out of the lockdown areas to get to work, in order to maintain provision for pupils who will be attending on-site provision.

If shielding measures are reintroduced due to the local lockdown, affected members of staff will be supported to work from home or the appropriate leave or pay measures will be discussed.

Staff with roles that must be undertaken on site (e.g., teachers) will be asked to come into school to deliver provision, unless they are shielding or self-isolating. Staff members who can carry out their role from home will be supported to do so.

An audit of all staff will be conducted to assess who is able to work on site and who will need to work from home due to their underlying health issues or those of the people they live with. The audit will be reviewed on a continuous basis to establish whether the circumstances of any staff member have changed.

If any staff member has concerns regarding working on the school site, they will discuss these concerns with their line manager.

Infection prevention and control

The school's Infection Control systems will continue to be adhered to.

Any member of the school community who displays symptoms of coronavirus will be encouraged to get a test. Tests can be booked online or ordered by telephone via NHS 119. Essential workers, including school staff, have priority access to testing.

If a pupil develops symptoms of coronavirus while on site, they will be taken to the medical room which is the designated isolation area while they wait to be collected. The pupil will be supervised while they await collection. The supervising will wear PPE. After the pupil has left the premises, any areas they were in will be cleaned. The pupil's parents will be encouraged to get their child tested. The pupil will be required to self-isolate for at least 10 days – remote education will be arranged for them immediately.

If a staff member develops symptoms while on site, they will be directed to go home to self-isolate and to get a test. Cover arrangements will be put in place.

Any staff members or pupils who have been in close contact with a symptomatic individual do not need to self-isolate unless they develop symptoms themselves or the individual subsequently tests positive.

If an individual tests positive, the school will contact the local HPT. The individual's close contacts at school will be sent home to self-isolate for 14 days and encouraged to get a test. If more individuals test positive, the school will follow advice from the local HPT, which may include requiring more people to self-isolate.

3. Remote education

If a local lockdown is implemented, the school will offer immediate access to remote education for pupils who are required to remain at home. If there is not a local lockdown, but a single class or bubble needs to self-isolate, the school will immediately implement remote learning for that group.

Teaching and learning

All pupils will have access to high-quality education when remote working.

The school will use a range of teaching methods to cater for all different learning styles. This includes:

- Work packs.
- Online learning.
- Lessons taught via zoom or Microsoft Teams.

Teachers will ensure lessons are inclusive for all pupils and can be adapted to account for the needs of individual pupils.

When teaching pupils who are working remotely, teachers will:

- Set assignments so that pupils have meaningful and ambitious work each day.
- Deliver a planned, coherent, and well-sequenced curriculum which allows skills to be built incrementally.
- Provide frequent, clear explanations of new content through high quality curriculum resources, including through educational videos.
- Assess progress by using questions and other suitable tasks and be clear on how regularly work will be checked.
- Adjust the pace or difficulty of what is being taught in response to questions or assessments, including, where necessary, revising material or simplifying explanations to ensure pupils' understanding.

- Plan a programme that is of equivalent length to the core teaching pupils would receive in school, ideally including daily contact with teachers.

All provisions for remote learning will be subject to the class group's age, ability and SEND.

In exceptional circumstances, the school may reduce its curriculum offering to enable pupils to cope with the workload – the headteacher will assess this need, keeping pupils' best interests in mind, and will not take the decision lightly.

Teachers will continue to make use of formative assessments throughout the academic year, e.g., quizzes.

The school will endeavour to provide access to a digital device or the internet for pupils who are working at home but have no access to these facilities.

Before distributing devices, the school will ensure:

- The devices are set up to access remote education.
- Appropriate safeguarding controls and support are in place to help pupils and their families use the devices safely.

Once devices are ready for collection, the school will either arrange for them to be collected by families from school or delivered to pupils' homes, ensuring infection control measures are adhered to as part of this process.

Returning to school

The headteacher will work with the appropriate Local Authorities to ensure pupils only return to school when it is safe for them to do so. Prior to the return of more pupils and staff, all relevant risk assessments will be reviewed.

After a period of self-isolation, or the lessening of local lockdown rules, the headteacher will inform parents when their child will return to school.

The headteacher will listen to all concerns that parents may have about their child returning to school and will advise them of the measures in place to ensure the safety of their child.

4 Safeguarding

Ensuring safeguarding arrangements remain effective while the school is partially closed is a key priority.

Our Safeguarding Policy was updated during the national lockdown to include provisions for keeping pupils safe during the coronavirus pandemic – we will continue to follow these procedures for pupils who remain at home, where appropriate, until all pupils are able to return to school.

We will continue to ensure that:

- The best interests of pupils always come first.
- If anyone in the school has a safeguarding concern about a pupil, they act immediately.
- A DSL or deputy DSL is always available.
- Unsuitable individuals are not permitted to work with pupils or come into contact with pupils whilst on site.
- Pupils who remain at home are protected when they are online.

5 Food provision

We will ensure measures are in place so that meals can be prepared and served safely for pupils who remain on site.

The school catering team will work with our food providers to ensure we can continue offering FSM to pupils and families who are eligible.

6 Communication

The school will communicate its plan for a local lockdown with parents, including whether it will remain open to vulnerable pupils and children of critical workers, or if remote working will be applicable for all.

All relevant stakeholders will be kept up to date with the circumstances of the local lockdown and how it affects the school as they develop.

If any member of the school community wishes to discuss any concerns relating to the school's provision during this period, they should contact the following as appropriate:

- Staff – their line manager
- Pupils – their class teacher
- Parents – the headteacher
-

7 Monitoring and review

This plan will be reviewed continually in line with guidance from the government and Public Health England (PHE).

Any changes to the plan will be communicated to all relevant stakeholders.
